Dear North County Animal Hospital:

Would you kindly place this petition so your good customers can sign it please?

We are trying to allow people to have one pet at their condo complex. My complex allowed it but with the new manager got rid of animals, Now people hide their animals! This isn't right! We come to you with our dog when in Florida but haven't been lately because of this. As you know pets help everyone be healthier + happier.

If you would n't mind copying a number of these petitions + keep them coming, that would be wonderful, too. We need 50,000 signatures just to allow a bill to come forth.

If you have friends or colleagues, please pass some on to them also. It would help all the vet hospitals in Florida if this came about.

Thank you + best wishes,

Fran Johnson
